

INGREDIENT INFORMATION

At Burger King, we're committed to serving our Guests great-tasting food made with quality ingredients. Our iconic Whopper sandwiches - crafted with flame-grilled, 100% real beef and freshly cut toppings - are a proud example of that promise. As the Home of Have It Your Way, we're continually innovating to create delicious recipes using ingredients our Guests can trust.

At Burger King, we want you to feel good about what you're eating, so we're making it easier for you to find our ingredients. The information is for our U.S. menu and is based on our standard recipes and the latest details from our approved suppliers.

That said, things change from time to time. Depending on where you are, what's in season, or updates from our suppliers, ingredients might vary a bit — and some menu items may not be available at every restaurant. While we do our best to keep this information fresh and accurate, recipes and ingredients do change, and those changes may happen before this list is updated.

Also, please note, our kitchens use shared spaces and equipment, which means your food might come into contact with other ingredients, including common allergens. For full allergen details, see www.bk.com.
